

# PLASTICS PROCESSING MACHINERY EXPERTISE

Industry projections estimate the global market for plastics processing machinery will hit the \$40 billion mark by 2022 across all sectors. Our breadth of expertise and deeply-rooted supplier relationships place B&D Technologies directly ahead of that curve.

## INNOVATIVE SOLUTIONS AT YOUR FINGERTIPS

Technologically-driven, high-quality solutions are leading the upsurge, spurring a need for upgrades and modernization in emerging plastics production markets. The Applications Engineering Group (AEG) at B&D Technologies not only brings decades of expertise and service-driven experience to the table, but also a wealth of exclusive partnerships with world-class equipment providers.

## UNBEATABLE SYNERGY OF EXPERTISE AND PRODUCTS

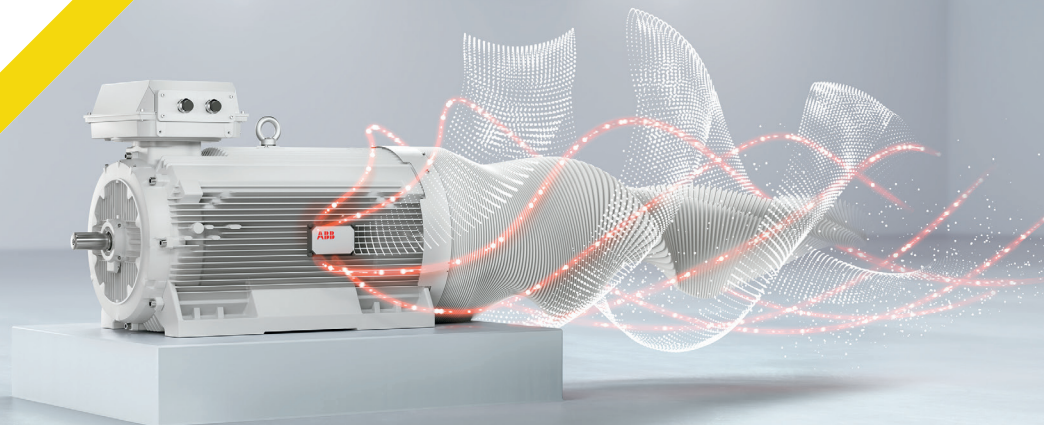

We understand that our customers require flexible solutions that easily integrate into existing production environments. As the only complete ABB distributor in the Southeast, we bring an unbeatable synergy of field-tested engineering expertise and best-of-breed equipment.

The AEG offers a full range of advanced turnkey solutions designed to meet the specific needs of the plastics production industry. This includes AC and DC drives, controls and safety engineering.

# PRODUCTS ENGINEERED TO WORK TOGETHER FOR MATCHED PERFORMANCE

Engineered to work in unity with each other while delivering high-performance operation, the Dodge power transmissions, Baldor motors and ABB drives offer detailed matched performance. In the hands of our team, this commanding combination guarantees higher output, increased efficiency and superior ROI.

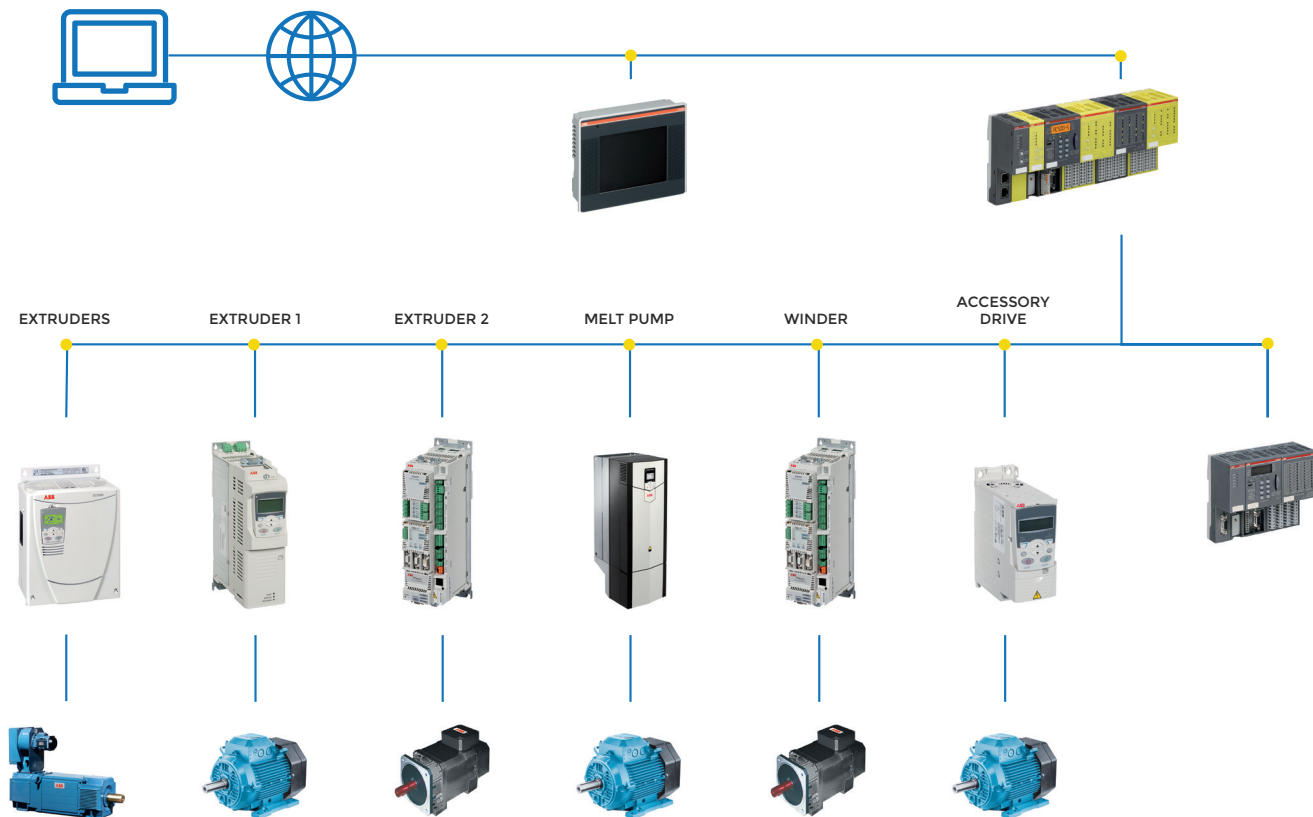

## 70-YEAR HISTORY WITH ABB, BALDOR AND DODGE

In 2016, B&D Technologies was named an ABB Authorized Value Provider, a rare and distinguished industry designation. Our advantageous relationship with ABB spans two decades and our connection to Baldor and Dodge reach across our 70-year company history.

In addition to these exclusive integration partnerships, we feature over 20 branch locations throughout the Southeast. B&D Technologies proudly offers 3 in-house testing labs and 2 distribution facilities with hundreds of thousands of parts from more than 300 suppliers to fulfill our customers' myriad needs.
